

General Managers Report 2017

Dear Members,

Our annual report for 2017 brings another year very similar to last years in all areas of trading. The income largely across the operation provided some growth as reflected by our profit increase on last year ,at the same time the Clubs liabilities continued to be reduced. Please read the treasurers report for a breakdown of financial statements.

The Club has continued to provide the amenities and promotions that members expect during the year and starting in May our Club will begin a refurbishment of the older area of the club. The refurbishment will involve the stripping of the old restaurant, rooms and toilets and replacing with modern facilities to attract functions, training and seminars. We are looking forward to the refurbishment, it will provide a new contemporary look and feel to the Club which I'm sure the members will approve of. I would like to thank all my staff for their continued efforts during the year and also my board of directors for their ongoing support, also thanks to our members who continue to support the Club.

Yours Sincerely

Phillip Hill

General Manager
